PART 2 - RATIONALE FOR APPOINTMENT

Provide a concise reason why your organisation should be appointed as the National ISRC Agency for your country.

IPF is the music licesing company in Slovenia and has invested extensively in achieving good data quality. We also have contacts with all local producers, we have an administration which will ensure high-quality work, we provide technical support for maintaining the database, and we have skilled employees.

PART 3 - CAPACITY TO FULFIL THE ROLE

Why do you feel that your organisation can fulfil the role of National ISRC Agency? What will you do to ensure the full implementation of the ISRC system in your country?

Record companies are constantly turning to us for information about ISRC codes. At the same time, we believe that it is much easier for a local representative to pursue the goals locally than to regulate the matter through agents in other countries. We are also strongly involved in the international organizations (IFPI, SCAPR) and we think that we could easily accomplish this in Slovenia.
